<p>Please tick to confirm: I acknowledge that the information provided on this form is intended for publication on an open-access web page and I agree to its publication:</p>		<input checked="" type="checkbox"/>	

Please use the box below to provide further information about the course (e.g. modules covered/partial training):

The course consists of one theoretical and one practical module. The theory block is held twice per year, once per semester. The students who passed the theoretical examination are scheduled in groups of maximum 20 students for the practical block, which is held 2-4 times per semester, depending of the number of students who attended the theory block.

Please submit a separate form for each course you provide.

If you have any important additional information about your courses that you would like to be included but which has not been covered adequately by the questions above please contact ETPLAS with your comments so that we can amend the form for future use.

ETPLAS cannot be responsible for information supplied so anyone interested in a course is advised to obtain full information about the course from the course provider.
