

STATEMENT

Training hours recognized for ETPLAS modules by Spanish authorities

In an effort to facilitate recognition of the six current ETPLAS e-learning modules as education and training for Continuing Professional Development (CPD), a working group within the Spanish National Committee for the Protection of Animals under Experimental Procedures (CEPAFIC), with the collaboration of the Spanish National Research Council (CSIC), established the estimated training time required for each module.

These are described in the following table:

| EU modules | EU-10 | EU-11 | EU-12 | EU-25 | EU-52 | EU-60 |
|--------------------|----------------|----------------|----------------|----------------|----------------|----------------|
| Median time | 4 hours | 3 hours | 7 hours | 4 hours | 4 hours | 5 hours |

This document may be attached to the certificates automatically issued by the website upon completion of any of the e-learning courses, for the sake of recognition of CPD hours

September 26th 2022

ETPLAS President 2022-2023,

Nuno Henrique Franco
